Wellness Area Catalogue

begin your journey to relaxation

Wellness at our spa is not simply a treatment.
It is a retreat beneath the surface.

Hidden underground, among natural stone, warm wood and soft starlit ceilings, the space is designed to slow the senses and quiet the mind. Light softens. Silence deepens. The body begins to let go.

Moments unfold gently between the warmth of the jacuzzi, the cleansing steam of the hammam, refreshing rituals of water, calming herbal infusions and restorative massage experiences. Each element invites stillness, balance and complete relaxation.
